

Youth and family worker or pastor

Do you care passionately about reaching out to and caring for young families in the community? Does doing fun filled primary school assemblies inspire you? Can you put a church bouncy castle up and down and do you see the point? Do you have a heart to see all the generations worshipping God together?

If you are answering YES to these questions, then we would love to hear from you about this forward looking role within the church.

You would be part of a team with special responsibilities in the area of young people and families.

The role would suit a variety of people. Anyone with a love and passion for young families should apply.

If you have a leadership call on your life, we would offer training and support in working towards Minister in Training and ordination.

In the first instance it would probably be a voluntary position, but it could easily develop into a paid role.

We would love to hear from you. Please contact Tony on officetriow@gmail.com
